

## Health Care Management Policy and Procedure

### Policy

Sasrapid Incorporated endeavours to ensure the Health Care of all Participants.

Sasrapid ensures the Health Care Management of all participants is the responsibility of the participant or their carer/parent/advocate.

### Procedure

Sasrapid ensures that all participants complete a Medical Form (as part of the Active Member Form) to the best of their ability. In the instance where the participant is not able to complete the form Sasrapid ensures an advocate/parent/carer completes the form on their behalf.

Sasrapid at no time administers medication to any participants involved within any activity/program.

On an occasion of an injury where medication may need to be administered, the parent/carer/advocate of the participant will be contacted and arrangements made for that person to immediately attend the program/activity or an ambulance is called if the situation is an emergency.
