

Individual Program Policy

Policy

Sasrapid Incorporated maintains that all participants are individuals and therefore will be accorded dignity as such. Sasrapid endeavours to provide a 'holistic' approach to all participants in all circumstances.

Although Sasrapid does not provide an individual program plan for each participant, where there is an obvious need that a participant requires individual assistance (or it may be requested by the participant, guardian or advocate), Sasrapid will ensure appropriate action is taken.

Sasrapid ensures the inclusion of participants into 'community' sporting competitions/activities where appropriate. This is done in consultation with the participant / guardian and or advocate. Meetings, both informal and formal are documented with records provided to the participant and kept on file, to ensure all discussions and outcomes are understood by those involved.

Sasrapid provides elite pathways for participants who by choice and who have the ability to participate in State, National and International events. This is done in conjunction with generic sporting institutions eg Athletics SA, Basketball SA etc.

Sasrapid endeavours to provide ongoing support and assistance to all participants involved within Sasrapid activities and to those participants who have successfully integrated into 'community' sport where and when appropriate and requested.

Sasrapid ensures that all participants are encouraged to participate in sports/activities where it is age appropriate, understanding that in some instances the 'team environment' has become their 'social network' and it is difficult at times for participants to 'move on'.

Sasrapid will endeavour in all instances to provide a 'holistic' approach to participants and their families as per Sasrapid philosophy.

POLICY REVIEW

This Policy is to be reviewed on or before February 2015
